

How to Login to My PC for Dummies

Step 1: Sit down in the chair.

Step 2: Move the chair directly in front of the keyboard and monitor.

Step 3: Press in the button in the center at the top of the front panel of the PC's case firmly for 0.75 seconds.

Step 4: Release the button.

Step 5: Press the button on the bottom of the right side of the monitor until a click is heard.

Step 6: Release the button.

Step 7: Wait until the monitor displays the "start-up" screen, then press any key on the keyboard.

Step 8: Wait until the monitor displays a small white rectangle in the center of the screen, overlayed on the start-up screen, then type the User's Microsoft Account password using the keys on the keyboard.

Step 9: Press the enter key on the keyboard.

Step 10: Wait until the monitor displays the User's desktop. If the monitor does display the User's desktop, you have succeeded in logging in to my PC.
